

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

NUMBER. XLI.

HOUSE JOINT RESOLUTION With a Memorial to the Senate and House of Representatives of the United States.

*To the Senate and House of Representatives
 of the Congress of the United States:*

The Memorial of the State of Tennessee, would respectfully represent, that in the year 1852, the Legislature of the the State of Tennessee passed a Public Act, granting liberal and extensive aid to railroads within her territory, by loan of bonds—that by the provisions of said Act, railroads then receiving aid from the State in bonds were required to pay *semi-annually*, the interest on said bonds, and to provide a sinking fund for the eventual payment of the principal.

Your memorialists would further represent, that during the late civil war, some of these railroads were torn up, greatly damaged and temporarily destroyed by order of the military authorities of the United States, as a military necessity; that in many instances, the said roads when not torn up and temporarily destroyed, were taken possession of and operated by the military authorities of the United States, not only for the transportation of troops, munitions of war and supplies, but were operated for public traffic, and the proceeds thereof, paid into the Treasury of the United States.

Your memorialists would respectfully represent, that during all this time, the said roads were unable to pay their

said interest to the State, and have not since been able to do so; that at the termination of the war, or when the said roads were turned over to their respective owners, they were in such a crippled and embarrassed condition, that many of them have not, after nearly five years, been able to meet the current interest, and it is much doubted, whether they will ever be able. The debtors of your memorialists being thus rendered unable to pay—your memorialists submit:

1st. That the destruction of said roads, being a military necessity and for the general good, the State of Tennessee shall not be required to suffer all the loss.

2nd. That the Government of the United States, should pay to the State of Tennessee the current value of all transportation carried on over said roads, either in troops, munitions of war and supplies, as well as all moneys received by the Government of the United States, or their agents, for public traffic. Your memorialists do not complain that their debtors were despoiled and made bankrupt by the operation of the Government in pursuit of the "general welfare," but they insist that compensation from the public funds should be allowed.

Resolved by the General Assembly of the State of Tennessee, That the Governor be, and he is hereby requested, to forward a copy of this Memorial, to each of our Senators and Representatives in Congress, with the request, that the same be presented to the Congress of the United States.
